TO THE TEACHERS OF THE CHILDREN.

It is of the utmost importance that the earliest steps in reading should be taken in the right direction. The habit of throwing expression into the sentences from the very first is invaluable; and this is impossible where the vocabulary is large. With this fact in mind, I have made my lessons as simple as possible; the average number of new words being about two and one-quarter to each page.

“To let the new life in, we know
Desire must ope the portal.”

The subjects of the lessons have been chosen with an especial view to interesting the little ones so that their expression will come naturally and spontaneously.

The wise teacher will weave an interest about the earliest lessons, filling them with thought and meaning of which the printed text shall be but a suggestion. A question here and there, a drawing out of the memory and imagination, will fill the pupil with a real interest in what he is reading; and the eager child nature will exult in the knowledge he has acquired, and pressing forward to what lies beyond will throw life and meaning into the simplest sentences.

In connection with this book I have prepared a complete set of Practice Sentences. These consist of fifty envelopes, each containing twenty sentences, introducing and giving practice on the new words in

each lesson. After the new words have been developed and taught from the blackboard, these sentences are distributed to the children, and are read in turn. Each child has his attention fixed upon his own individual sentence, and his mind is more concentrated than in the blackboard lessons. No time is lost in waiting, as the preparation can be made while the others are reading, and the lesson in the book is kept fresh for the final reading. I have made and used a similar set, during the past three years, and consider them almost indispensable.

Read! read! read! is the cry of the times, and this set will double the reading-matter without increasing the vocabulary. Hoping this book may be of service to the teachers as well as to the children, whose interests are always near my heart, I remain,

Yours very cordially,

ELLEN M. CYR.

CYR'S READERS are in harmony with the best educational thought of the time. They make a most excellent introduction to a course of reading made up of whole pieces of the best literature. They do a work for schools for which it would be very difficult to find a substitute. The children take a constant delight in using them. They arouse at once such an interest in reading that the teaching to read is half accomplished. Children learn to read from these books in less than half the time than from ordinary readers.

A series of school readers that can arouse and maintain an interest on the part of pupils for what is wholesome and elevating in literature must necessarily be the rarest of all among books for schools. The Cyr books are of this remarkable sort. They possess a peculiar quality of interest and inspiration. They not only interest but stimulate young people. This is the secret of their exceptional success. This is the reason why teachers like to teach them and young folks like to read them.

THE CLASSIC PRIMER. 94 pages. Illustrated. Boards. 20 cents.

The Stickney Readers are based on the right idea of what a reading book should be. They secure the best results at the least expense of time and effort. It is their distinct aim to inculcate a love of reading, and so give not only the key to all knowledge, but the desire to use it. They are the fruit of many years of most successful experience, and, while original in many features, are always rational and practical.

O. T. Bright, *Superintendent of Cook County Schools, Chicago*: They are well graded; the reading matter is of great interest, and has real merit as literature; the amount of reading will delight the hearts of teachers and children; the suggestions to teachers are excellent.

E. A. Sheldon, *Principal of State Normal School, Oswego, N. Y.*: They are beautiful books, and happily adapted to children of the grade for which they are prepared.

George L. Osborne, *President of State Normal School, Warrensburg, Mo.*: I especially commend them for the freshness of the exercises, their adaptability to the purposes intended, and the general plan which prevails throughout.

A. R. Sabin, *Assistant Superintendent of Schools, Chicago, Ill.*: They have found favor with our teachers and pupils from the first. To me the books seem to be just what the gifted author intended them to be,—as natural and beautiful as childhood itself. They deserve the greatest success.

G. S. Albee, *President of State Normal School, Oshkosh, Wis.*: We need only say, in addition to the testimony of use, that we were never so completely won to the merits of any former series.

E. H. Davis, *Superintendent of Schools, Chelsea, Mass.*: It is one of the best series of readers yet published,—natural in style, well graded, very popular with teachers, and exceedingly interesting to children.

GINN & COMPANY, Publishers.

James Parton, the Historian, called Jane Andrews, the author of these books, "the best teacher in the world."

THE JANE ANDREWS BOOKS

A remarkable series of attractive and interesting books for young people, — written in a clear, easy, and picturesque style. This is the famous Jane Andrews series which has been for many years an old-time favorite with young folks. Other juvenile books come and go, but the Jane Andrews books maintain the irresistible charm they always have had.

THE SEVEN LITTLE SISTERS WHO LIVE ON THE ROUND BALL THAT FLOATS IN THE AIR. 12mo. Cloth. 143 pages. Illustrated. For introduction, 50 cents.

EACH AND ALL; THE SEVEN LITTLE SISTERS PROVE THEIR SISTERHOOD. 12mo. Cloth. Illustrated. 162 pages. For introduction, 50 cents.

THE STORIES MOTHER NATURE TOLD HER CHILDREN. 12mo. Cloth. Illustrated. 161 pages. For introduction, 50 cents.

TEN BOYS WHO LIVED ON THE ROAD FROM LONG AGO TO NOW. 12mo. Cloth. 243 pages. Illustrated. For introduction, 50 cents.

GEOGRAPHICAL PLAYS. 12mo. Cloth. 140 pages. For Introduction, 50 cents.

The "Seven Little Sisters" represent the seven races, and the book shows how people live in the various parts of the world, what their manners and customs are, what the products of each section are and how they are interchanged.

"Each and All" continues the story of Seven Little Sisters, and tells more of the peculiarities of the various races, especially in relation to childhood.

Dame Nature unfolds in "Stories Mother Nature Told" some of her most precious secrets. She tells about the amber, about the dragon-fly and its wonderful history, about water-lilies, how the Indian corn grows, what queer pranks the Frost Giants indulge in, about coral, and starfish, and coal mines, and many other things in which children take delight.

In "Ten Boys" the History of the World is summarized in the stories of Kabla the Aryan boy, Darius the Persian boy, Cleon the Greek boy, Horatius the Roman boy, Wulf the Saxon boy, Gilbert the Knight's page, Roger the English boy, Fuller the Puritan boy, Dawson the Yankee boy, and Frank Wilson the boy of 1885.

In "Ten Boys" one is struck with the peculiar excellence of its style, — clear, easy, graceful, and picturesque, — which a child cannot fail to comprehend, and in which "children of a larger growth" will find an irresistible charm. — **John G. Whittier.**

SHORT STORIES

By ELIZABETH A. TURNER.

12mo. Boards. 128 pages. Fully illustrated.

For introduction, 25 cents.

THIS is a charming little book by Miss Turner, whose readers have been favorably received by the educational public.

“Short Stories” is intended to be used as a supplementary reading book in primary classes using third readers.

Reading books for primary schools should be simple in thought and language, and, at the same time, interesting enough to hold the attention of the children, so that they will be read intelligently and with pleasure.

The aim of these stories is to entertain rather than to instruct, though where a little instruction could easily be given, it has been furnished.

The book is finely illustrated with pictures prepared for this Reader and especially designed to please the little folks.

SEED AND HARVEST. By S. E. BRASSIL and J. H. STICKNEY. [*In preparation.*]

The **Study and Story Nature Readers** are readers in form and appearance, but have a wider aim in being well-chosen points of departure through conversational lessons — *opportunities* for observational work.

Earth and Sky, No. I, the first book of the series in grade, is a little reader which embraces a wide range of topics.

Pets and Companions, the second book of the series in grade, is a little reader of stories and easy studies. Its subjects are such familiar animals as are best calculated to inspire sympathy and affection.

No effort has been spared to make **Bird World** one of the most attractive and instructive reading books on birds ever published. Miss Stickney has had associated with her in its literary and artistic preparation Mr. Hoffmann, a gentleman who has lived closer to bird world than any of us. For years he has known by sight and sound all the New England birds and many, if not most, of our chance summer and winter visitors. A number of the stories are based upon his own personal observations. Special features of the book consist of true pictures of birds by the well-known artist, Mr. Ernest S. Thompson, and also of a series of color photographs.

LITTLE NATURE STUDIES

FROM THE ESSAYS OF JOHN BURROUGHS.

EDITED BY

MARY E. BURT,

Author of "Literary Landmarks," "The Child-Life: Primary Reading and Education Chart," etc.

VOLUME I. A Primer and a First Reader. Boards. Sq. 12mo. Illustrated. 106 pages. For introduction, 25 cents.

VOLUME II. A Second Reader and a Third Reader. Boards. Sq. 12mo. Illustrated. 103 pages. For introduction, 25 cents.

THESE books are intended to be used as regular text-books for the class-room, or for supplementary reading in the lower grades. They have been adapted from the essays of Mr. Burroughs, in which work the editor has been assisted to some extent by the author. The intention of the books is to introduce the child and the teacher to out-of-door studies, to a love for the woods, fields, skies, plants, and other real things in life, and to the acquisition of the habits of the naturalist.

The books are handsomely illustrated, and their terse sentences are full of fun and native wit. They cannot fail to introduce both child and teacher to a large fund of information, as well as to lead them to a taste for the elegant literature of a sterling author.

Eva J. Blanchard, *Principal of Model School, State Normal School, Westchester, Pa.*: A charming combination of the practical and the ideal.

W. E. Wilson, *Principal of State Normal School, Providence, R.I.*: They are very pleasing and, besides that, entirely good. My children like them.

Mark Pitman, *Principal of Woolsey School, New Haven, Conn.*: They are among the best of the

many recent little books by which publishers are doing so much to make school life fascinating and profitable to the children.

Frederick Reed, *Chestnut Hill Academy, Philadelphia, Pa.*: We are using Little Nature Studies in our school with great interest and profit.

E. H. Russell, *Principal of State Normal School, Worcester, Mass.*: They are a step in the right direction.

Author of Wentworth's Series of Mathematics.

16mo. Cloth. 190 pages. Price for introduction, 30 cents.

WENTWORTH'S MENTAL ARITHMETIC has 190 pages and each page has one lesson. The book is divided into five chapters. The examples are **new and progressive**. They involve small numbers only, and are specially adapted to securing mental discipline and a practical mastery of the common problems of every-day life.
